Unit for Intellectual and Developmental Disabilities,
Faculty of Psychology and Educational Sciences,
University of Geneva (Switzerland)**

Dr Maude Schneider

[Read More](#)

Dr Maude Schneider is assistant professor at the Faculty of Psychology and Educational Sciences of the University of Geneva since 2019 where she heads the Clinical Psychology Unit for Intellectual and Developmental Disabilities.

Dr Maude Schneider is working as a clinician and researcher in the field of neurodevelopmental disorders. Since 2009, she is actively involved in the 22q11DS Geneva longitudinal cohort and is also conducting research on autism spectrum disorder. Using a combination of clinical and cognitive approaches as well as digital phenotyping, her research aims to explore the mechanisms underlying social and mental health difficulties of adolescents and young adults with neurodevelopmental conditions. She is also the scientific coordinator of 22q11Europe and advisor for the 22q11.2 society.
